Hira Baig

Data analyst: SQL, BI dashboards and experimentation

Islamabad, Pakistan · 4 years freelancing

Skills

A/B testing, Airflow, BigQuery, Data visualization, ETL, Excel, Google Analytics, Looker, Power BI, Python, SQL, Snowflake, Statistics, Tableau, Time-series forecasting, dbt, pandas

Selected experience

BigQuery cost optimisation (2025-09, advertising): cut monthly warehouse bill by 46%.

Churn drivers analysis for a gym chain (2025-07, fitness): linked 40% of churn to class-schedule changes.

Looker semantic layer for an ad agency (2025-05, advertising): self-serve reporting for 30 account managers.

Inventory KPI dashboard for a pharmacy chain (2025-03, retail): reduced stock-outs by 17%.

dbt models for a SaaS warehouse (2025-01, saas): replaced 60 ad-hoc queries with 24 tested models.

Pricing A/B test readout for a subscription app (2024-12, consumer apps): showed the higher tier lifted revenue 7% with no churn change.

Executive KPI pack in Tableau (2024-10, logistics): adopted as the official monthly board report.

Marketing funnel analysis for a DTC brand (2024-09, ecommerce): found a checkout leak worth $22k a month.

Nightly ETL from CRM to warehouse (2024-07, real estate): made pipeline data available by 6 a.m. every day.
